IOS ENGINEER

Experienced Apple Swift Engineer specializing in building fast, intuitive apps across iOS, macOS, and the wider Apple ecosystem. Proficient in Swift, SwiftUI, and UIKit, with hands-on experience using architectures such as Composable Architecture, MVVM, and MVC/MVVM hybrids to ensure modular, testable, and maintainable code. Currently contributing to **Plum**, collaborating closely with Product, Design, and cross-functional teams to deliver high-quality, user-centric financial features at scale. Skilled in shipping impactful products including MBLTY, POWR, LLG-Messe, HEIL-App, and side projects like PromptBar and imjaDNS, while mentoring teammates and crafting thoughtful user experiences from concept through release.

WORK EXPERIENCE

Jan 26 - pres.

iOS Engineer, Plum, UK

Senior iOS Engineer at Plum building high-impact fintech features for the banking app with Swift, SwiftUI, and TCA, driving clean architecture, performance, and reliable user experiences at scale.

Jan 25 - 26

iOS Engineer, ebiscon GmbH, GER

Engineering leader delivering high-impact iOS apps (HEIL, MBLTY, POWR, LLG) using MVVM/TCA. Proven expertise in team guidance and scalable solutions.

Jun 23 - 25

iOS Engineer, AppArt, GR

Building My DEDDiE App in Swift with MVC/MVVM, optimizing load times and memory usage while maintaining clean, testable code.

May 22 - 23

Software Developer, Public Group, GR

Enhanced high-traffic platforms with Angular 13+, implementing schema.org structured data on product pages, regex-based form validations, and RESTful partner review integrations for scalable, maintainable frontends.

April 22 - pres.

Full-Stack Engineer, AP-Global, US

Leveraging Angular, Node.js, and MongoDB to deliver immersive AR/VR exhibitions and seamless e-commerce experiences for artists and collectors.

EDUCATION

2018 - 2023

Informatics and Computer Engineering

MEng, University of West Attica, GR

2022 - 2023

Master in Advanced Software Engineering

Master, University of York, UK

2023

iOS Development

Diploma, London App Brewery, UK

2024

iOS Development

Diploma, Meta, USA

HONORS

Apps4Athens Hackathon 2.0 2025

Athens, Greece

LocAbility was selected among the **Top 20 projects out of 120 at Apps4Athens Hackathon 2.0 (AI Edition)** by the **City of Athens**, recognizing its human-centered approach to accessibility and mobility.

CoNeCo 2024

Copenhagen, Denmark

Thesis on **Designing a human-centered mobile app for managing stress and anxiety** selected as one of 37 standout submissions for honors and awards.
